About Naresh & Co

Who We Are

Naresh & Co is a leading provider of end-to-end engineering solutions for the telecommunication sector, specializing in construction, installation and commissioning of wireless and wireline telecom equipment and networks across India and internationally.

Our portfolio spans supply and fabrication of telecommunications and EB mast, poles and towers; IBS Poles, Micro Towers (up to 12 m), Macro Towers (up to 100 m — GPT and RTT), and full deployment of 2G, 3G, 4G, 5G, MW, and Microwave hops.

Our Commitment

We invest in tools and training on the latest technologies, enabling our expert team to execute projects with maximum efficiency and deliver customized solutions for even the most demanding telecom challenges.

ISO 9001:2015

CERTIFIED

Quality Management Standards

International Operations

Successfully completed major telecom projects in Thailand and overseas — world-class global delivery.

Manufacturing Excellence

In-house EB cement poles manufacturing ensures quality control and timely delivery.

Pan India Operations

Executing Bharti Airtel projects across multiple states and cities throughout India.

Our Services

Comprehensive end-to-end solutions for the full telecom infrastructure lifecycle.

Telecom Infrastructure

Site survey, foundation works, tower erection, GSM/CDMA BTS I&C, microwave hops alignment.

Transmission & Distribution

Line surveys, route alignment, earthing & erection, conductor stringing, OPGW, commissioning.

Inspection Services

Inspection of towers, conductors, OPGW, hardware, earthing materials and site auditing.

Network Deployment

2G/3G/4G/5G, MW, WIFI, IWAN, FTTH, FTTB design, installation, configuration, commissioning.

Wire Line Services

MSAN, Switches, MUX, Routers I&C. OFC & Copper network, voice/DSL migration, MDF termination.

Project Management

End-to-end PM: design, scheduling, procurement, QA, OHSE compliance, statutory clearances.

EB Cement Poles Mfg

In-house precision-engineered poles with strict quality control to meet all industry standards.

Cable Trays & Clamps

Supply of GI/SS cable trays, ladder trays, U-bolts, clamps and all associated accessories.

EB Cement Poles & Panel Boards

In-House Manufacturing

- Superior compressive strength and durability
- Precision-engineered taper and cross-section
- Strict quality control at every production stage
- Manufactured to IS and telecom industry standards
- Delivered ready-to-install at project sites
- Cost-effective vs. third-party procurement

EB Panel Boards

Supply & Installation

- Main & sub-distribution boards (MDB/SDB)
- MCB, MCCB, RCCB and isolator assemblies
- Bus bar trunking and cable termination
- Meter panels and energy measurement systems
- Compliant with IS 8623 and IEC 61439 standards

Tower Infrastructure Showcase

Thailand Telecom Site Construction and Tower Erection

Cable Trays, Clamps & Safety Measures

Cable Trays & Clamps Supply

Perforated Cable Trays

GI and SS perforated trays for organized cable routing in towers, shelters and equipment rooms. Widths 100–600mm.

Ladder Cable Trays

Heavy-duty ladder trays for large cable bundles. Hot-dip galvanized for outdoor and harsh environments.

Clamps & Accessories

U-bolts, J-bolts, hanger clamps, saddle clamps, cable ties — zinc-plated or SS for corrosion resistance.

PPE Requirements

Safety helmets, full-body harnesses, safety footwear, high-visibility vests, eye and ear protection — mandatory on all sites.

Site Protocols

Daily toolbox talk, risk assessment & method statement (RAMS), permit-to-work (PTW), scaffolding and fall-arrest inspection.

Emergency & Environment

First-aid trained personnel, evacuation plan, fire extinguishers, waste segregation, hazardous material handling protocols.

Zero Accident Policy

100% PPE compliance, daily safety audits and incident reporting to maintain our zero-accident commitment.

Our Capabilities

Professional Services

- Pre-installation site readiness survey
- Equipment installation and commissioning
- HW & SW upgrades (all configurations)
- Call testing including E911 verification
- Site and network monitoring
- Emergency and on-call work support

Construction Expertise

- Cellular tower construction — all equipment
- Rooftop, in-building, ground-based sites
- Complete electrical circuit distribution
- Greenfield sites in all terrains and soils
- Tower unloading, assembly and erection
- Scheduled maintenance and emergency repair

Project Management

- Planning & scheduling per roll-out schedule
- Risk management and materials ordering
- Health & safety compliance and QA
- Documentation and milestone reporting
- Cost control and progress reporting
- Inventory management and coordination

Technical Specializations

- Microwave installation, testing, relocation
- Transmission line testing & optimization
- WIFI coverage predictions & frequency planning
- CAT 6 cable supply, laying and termination
- Post-commissioning walk testing
- RF optimization — cluster testing (ATP)

Our Valued Customers

Bharti Airtel Ltd

Pan India

I&C of IBS for Chennai and multiple cities. Micro Sites deployment, Pole erection, civil works, electrical works, Equipment I&C, Site Survey, Test Drive and IWAN implementation nationwide.

Huawei Telecommunications India Pvt Ltd

3G/4G/MW

3G/4G Installation and Commissioning, Integration, MW I&C, Traffic Migration, MSAN Equipment Installation and Live Traffic Migration.

Tech Mahindra Ltd

WIFI

WIFI Design and Deployment services across multiple locations throughout India.

Data Dimension

Networking

Cisco MUX installation and commissioning services.

WHY CHOOSE NARESH & CO

✓ ISO 9001:2015 Certified

✓ Pan India Operations

✓ International Reach

✓ In-House Manufacturing

✓ 55m Tower Expertise

✓ End-to-End Solutions
